

OKI® C7300/C7500

Digital Color Printers

Fast, Accurate, High-Quality Color and Mono Printing

Single Pass Color™ Digital technology:
OKI® C7300/C7500 printers utilize a straight-through paper path that gives them greater paper-handling flexibility—including banner printing—and faster throughput in full color.

OKI C7300/C7500 Series Highlights:

- Single Pass Color™ Digital technology for printing on media up to 110 lb. index
- Color output at 20 ppm; mono at 24 ppm
- High-capacity, 2-piece consumables for low Total Cost of Ownership
- Up to 1200 x 1200 dpi resolution
- Powerful 450 MHz PowerPC 750 processor
- Memory upgradable to 1,024 MB RAM
- Paper input expandable to 1,690 sheets
- Job Accounting software and Web-based printer management utility included
- Direct PDF Printing – print .pdf files without Adobe® Acrobat® or Acrobat Reader^{1,2}
- Available with 10/100 Base-T Ethernet card³, 2-sided printing capability² and 10 GB hard disk drive²
- 1-Year On-Site limited warranty⁴ on printer; 5-Year limited warranty on LED printheads

¹ Requires Hard Disk Drive.

² Standard on C7300dxn and C7500dxn models.

³ Standard on C7300n, C7300dxn, C7500n and C7500dxn models.

⁴ Available in the U.S. and Canada only.

The Digital LED color printer designed for maximum productivity, cost efficiency and control of demanding color and monochrome printing needs.

With the C7300/C7500 Series color printers, OKI delivers stand-alone and network business color printing without compromise.

Full-color output at 20 pages per minute and monochrome at 24 ppm—on sheets from postcard-size to 8.5" x 47.24" banners.

Unmatched performance is built in.

Advanced color-matching firmware and high-speed data processing are integral to the C7300/C7500 Series printers' exceptional color printing performance.

OKI Single Pass Color™ Digital technology combines with improved image processing to deliver consistently accurate color. Auto Color Balance ensures that hues stay the same from start up through long print runs; new color tables simulate popular ink standards, such as SWOP™, Euroscale and Japan Color; and refined color screens provide smoother output, especially on photos.

A powerful 450 MHz processor means less time waiting for documents to print from your PC or Mac®. So that you can maximize the performance of your printer now or as your

needs for large documents and complex graphics grow, every C7300/C7500 model ships with generous standard RAM and can be upgraded to 1 GB RAM. And, to augment their document/file storage capabilities, all models are available with an internal 10 GB hard disk drive.² They can also be connected to your network via an internal 10/100 Base-T OkiLAN® 6200e+ print server.³

Versatile paper handling. The standard 630-sheet letter/legal capacity—with options for expansion to 1,690 pages—keeps user interventions to a minimum. Auto Media Detect reduces paper selection errors and waste, and a compact duplexer allows double-sided printing to minimize media usage and cost.²

Costs less to operate. You can save substantially on the cost per printed page with these OKI printers versus color laser, color inkjet and, especially, outside copy services. Further, the cost of a black-and-white page is comparable to that of most mono laser printers—so you can use OKI color printers for all your business needs.

OKI®

Designed to Perform in the Most Demanding Environments.

PROVEN.

Additional Specifications (All Models)

Performance

- Time to First Page:** 12 sec. Color; 10 sec. Mono¹
- Processor:** 450 MHz PowerPC 750 CPU
- Reliability:** 100,000 pg./mo. duty cycle

Productivity Utilities

- Job Accounting Utility:** Standard (requires hard disk drive for optimal performance)
- Web-based Management:** PrintSuperVision™ and OkiLAN® 6200e+ embedded Web server (with network card)

Color Controls

- Color Management:** Automatic OKI Color Matching, PostScript® CRD, Windows® ICM, Input/output ICC Profiles. Also supports color management systems that utilize ICC profiles (Apple® ColorSync®, Microsoft ICM, Adobe® apps, QuarkXPress™, CorelDraw™)
- Ink Simulations:** SWOP™, Euroscale and others
- Color Matching Modes:** sRGB, Monitor Simulations, Digital Camera

Compatibility

- Emulations:** PCL® 5c, PCL 6, Adobe® PostScript® 3™ standard; Direct PDF Printing (requires disk drive; Windows® OS only)
- Operating Systems:** Stand-alone and network – Windows XP, Me, 2000, 98, 95, NT® 4.0; Mac® OS 8.6–9.x, OS X.1; Linux® 2.0 with glibc2 or higher (Intel®); Solaris® 2.8 or higher

Memory

- Maximum RAM:** 1,024 MB
- Flash Memory:** 4 MB standard

Interfacing

- Connectivity:** IEEE-1284 bi-directional parallel; USB v1.1 (on Mac®), requires OS 9.x or higher; Auto interface switching
- Network I/F:** OkiLAN 6200e+ (10/100 Base-T) Internal Ethernet Print Server²
